Your evaluation/ fitting fee covers your trial lenses and up to 2 months of follow-up care. Follow-up care is vital to determine the fit of the lens and to protect the health of your eye. If you elect to forego the follow-up care and return beyond the initial 2 month period, normal office visit fees will apply. We do urge you to protect your vision and return for the follow-up care. Trial lenses are not for permanent use. You must have follow-up care to be able to purchase contact lenses. The prices of contact lenses will vary depending on the type of contacts that your doctor recommends and your prescription.

**The Evaluation/Fitting fee is not refundable or credited.**

I have read and understand the above information and agree to the terms set forth in this contract and have had all my questions answered.
